bicycle safety seats

one[®] junior
rear bicycle safety seat
for carrier mount

Please make sure that your rack assures:

- Compatibility with the ISO11243:2016
- Holds up to 38kg
- Width between 120mm -175mm - if your rack is narrower than 120mm, the seat will not be properly secured on the rack and may lead to an accident.
- Tube Ø 10-16mm - Round and Oval tube shape

We suggest to exchange your bicycle rack if it doesn't fit the above specifications.

Here are some examples of luggage carriers that comply with ISO11243:2016 and can support at least 38kg include:

- Tubus Logo Evo Rear Rack
- Axiom Journey Suspension & Disc Lowrider Rack
- Ibero PakRak Bicycle Touring Carrier Plus+
- Thule Pack 'n Pedal Tour Rack
- Topeak Explorer Tubular Rack
- Racktime Stand-It Shine Evo Touring Rack
- Blackburn Outpost Rear World Touring Rack
- Surly Nice Rear Rack

This is only a recommendation;
the above list was not tested internally with our seats.

As always, it's essential to verify compatibility with your bike and ensure the rack meets your specific needs.

Please ask for support at the nearest bicycle shop.
